

EDUCATION

Singapore Management University – Lee Kong Chian School of Business

Graduation Date: Dec 2025

Bachelor of Business Management - Finance, Data Science and Analytics

- Recipient of the Lee Kong Chian Scholars' Programme
- Achieved Dean's List for all applicable semesters (GPA: 3.66/4.00)

EXPERIENCE

Advanced Manufacturing Development Intern

May 2025 – Aug 2025

Singapore Economic Development Board (EDB)

- Evaluated the ROI of strategic sustainable initiatives within the advanced manufacturing sector, utilizing cost-benefit analysis to guide capital allocation and policy decision-making
- Built and centralized a labor market database, mapping inter- and intra-sector workforce movements to advise senior management on sectoral talent gaps and competitive positioning for Advanced Manufacturing Sector

Debt Capital Markets Intern

May 2024 – Aug 2024

DBS Bank Ltd Singapore

- Constructed detailed maturity profiles and refinancing strategies for high-yield and investment-grade issuers, helping clients visualize debt redemption schedules to support liability management decisions and new issuance
- Curated pitch books and market updates highlighting global macro, rates, and credit outlooks to identify strategic funding windows, specifically analyzing opportunities in markets such as Formosa bonds and SGD issuances
- Modeled indicative bond pricing for potential issuers by analyzing benchmark rates and credit spreads, providing data-backed recommendations to support the origination team in mandating new deals
- Monitored primary and secondary Singapore debt market activity to track investor demand trends, utilizing insights to provide actionable financing recommendations to financial institution clients

Transport and Logistics Sector Coverage Intern

Jan 2023 – Jun 2023

ING Bank N.V. Singapore

- Executed rigorous credit analysis and financial modeling for the shipping and logistics sector, evaluating asset quality metrics such as Deadweight Tonnage (DWT) and vessel age to assess collateral risk
- Facilitated the syndication of large-ticket financing deals by coordinating with lenders, structuring facility agreements backed by Export Credit Agency (ECA) guarantees to mitigate cross-border lending risk
- Conducted deep-dive industry write-ups and rating analyses, assessing cash flow stability based on long-term Bareboat Charter versus spot rate exposure to support internal credit committee approvals
- Liaised with external bank syndicates to manage loan documentation and ensure seamless deal execution for complex cross-border transport assets

Equities Research Intern

Aug 2022 – Dec 2022

Tokio Marine Asset Management International (TMAMI)

- Performed fundamental equity research by analyzing corporate governance structures, specifically assessing the impact of C-suite tenure and ownership concentration on return on equity (ROE) and profitability
- Analyzed issuer fundamentals using in-house quantitative models and qualitative data, producing investment memos to support portfolio managers in stock selection and alpha generation

Investment Services Public Markets, External Managers Department Intern

May 2022 – Aug 2022

Government of Singapore Investment Corporation (GIC)

- Engineered automated data pipelines using Python and VBA to manipulate and clean large datasets, generating accurate monthly AUM reports for external manager monitoring
- Converted raw hedge fund performance data into actionable dynamic visualizations in Tableau, enhancing the visibility of risk and return metrics for the investment team.

LEADERSHIP

SMU Emerging Markets Research, Vice President

Jan 2022 – Dec 2023

- Awarded top analyst for the club's internal initiation stock pitch with a pitch on Saudi Aramco Oil and Gas
